

AGREEMENT
TO JOIN THE CAMPAIGN
Destination Management Companies
& Ground Agents in Bhutan

Its Aims are three fold

To advocate and encourage more sustainable wildlife tourism in tiger reserves and national parks, by all those involved in the wildlife tourism equation through applications and adherence to ecotourism best practice guidelines. Look out for TOFTigers signage and PUG and Footprint Eco ratings for lodges.

To enhance the capacity of local communities to take advantage of existing and future wildlife tourism to help alleviate poverty and support sustainable local development.

To catalyse initiatives through the lodge community that enhance wildlife conservation efforts and community support including waste and water management, trade cooperatives, local employment, fair wages and support for local enterprises and services.

These objectives are best achieved by 'collective' action and partnership with all in the wildlife tourism supply chain.
